- 6 My opinion: 3059.4 km away from „by fair means“
The latest example of „record“ hunting in gliding with the help of all possible technical gadgets is exactly the opposite of „by fair means“.
- 8 A festival of gliding
The German Gliding Championships 2023 of the Open, 20m and 18m class in Bayreuth – from the exciting view of a participant.
- 16 Traps in warm air-masses
Warm air masses do not have a good reputation with us: they are as „capricious“, as „sneaky“. Seven typical traps are examined in more detail in this report.
- Main topics**
- 24 Up high: Flying safely in the Alps
Series Part 5: The organization. In the mountains there are some particularities that you have to be aware of.
- 34 Risk barometer
Why do very experienced good pilots make life-threatening maneuvers in full awareness??
It is important to recalibrate your own safety level from time to time.
- 38 Fly safely: The framework training concept (RTK) learns to fly – Training creates safety
Series The structured briefing is the basis for a day of structured flight operations and an important piece of „Flight Safety“
- 42 Sit comfortably, land protected
Why a Dynafoam cushion should be in every cockpit.
- 46 Safety on the ground
Accidents do not only happen in flight, things can also go wrong on the ground. An insurance expert answers the most important questions.
- 50 **Share your Experience: The first flight „after“**
The first time back in the cockpit after a flight accident...
- 54 **Digitalization in the cockpit**
There are almost no limits to the information you can get in the cockpit. But what is essential?
- 62 Which drive for the winch?
The power or torque curve of a motor in conjunction with the gearbox curves determines the basis for the design of the winch drive.
- 68 100 Years of Air Traffic Law in Germany
On August 01, 1922, the Air Traffic Law (LuftVG) was published in Germany, and its liability rules came into force just one month later.
- 72 Bring me stories! Experiences of a Carat pilot
Another year of gliding with the Carat-glider started out of the blue with unexpectedly great flights and finally ended with a whimsical aerial tour across Germany.
